

Lead Abatement Supervisor

Oversees employees of a lead abatement contractor or of the owner or manager of a leased or rented dwelling or dwelling unit, or of a childcare facility. They conduct abatement activities with a written lead exposure hazard reduction plan and as directed by the employing lead abatement contractor or qualified owner; and must be present at the abatement site at all times when abatement activities are being performed. They prepare written records and ensure that abatement activities are completed in accordance with standards and requirements of the OSHA Lead in Construction Standard.

Legislation

Statute: NH RSA 130-A:12
 Administrative Rules: Chapter He-P 1600

Certification Requirements

- File application
- U.S. citizenship or a working green card required
- Complete a certified training program specific to the discipline of lead abatement
- Pass examination with a score of 70 percent or higher
- At least 12 months of work experience as a lead abatement worker
