**LMI
TOOLS
for Business**

Have you ever found yourself looking for answers to questions like ...

- **Are my company's wages competitive?**
Use our **Wage Survey** to compare your company's pay rates with the average pay in the same geographic area.
- **What do others offer for benefits?**
Check out the results of our **Benefits Survey**.
- **How many people in New Hampshire are employed? Unemployed? What is the unemployment rate?** Every month ELMI releases **Local Area Unemployment Statistics (LAUS)** for counties, towns, and other areas.
- **Where do I find data for my affirmative action report?** We publish a variety of statistics on employment by gender and race.
- **Where do I find information about local communities?** Take a look at the **Community Profiles**, a compilation of data about each of the state's 234 cities and towns.

Get answers to these questions and more on-line from the ELMI web site:

www.nhes.nh.gov/elmi

Click on **Fast Find** and select:

- **Wage Survey** for pay rates by occupation and area
- **Benefits Survey** for benefit survey results
- **Unemployment Rate** to see the latest results of unemployment statistics
- **Community Profiles** for information sheets on New Hampshire's cities and towns
- **Covered Employment** for average employment and average weekly wages by industry and geographic area

Here are some other ways you can use labor market information:

- **Do your employees need a state-issued license, certification, or registration?** Use **Licensed, Certified, & Registered Occupations** for information on licensing agency contacts, requirements, fees, and more.
- **Are you trying to assess business growth trends?** **Employment Projections** estimates changes in employment for industries and occupations.
- **Applying for a grant?** Get statistics for grant applications, such as population or industry employment levels.
- **Do your employees need training?** Use **NSCITE** for information on educational institutions who may offer in-house training classes, cooperative education programs, or student intern placements.
- **Are you trying to calculate salary increases?** The **Consumer Price Index (CPI)**, which measures the average change in prices in a fixed market basket of goods and services, is commonly used to determine salary increases.
