## New Hampshire's Highest and Lowest Paid Jobs in 1999

Surgeons topped the list for the job with the highest mean hourly wage, \$68.53 in 1999. Surgeons are in the *Healthcare practitioners and technical occupations* major group\*. Seven other high paying jobs fall into this major group. Jobs in this major group had higher wages than jobs in the other groups represented in the table, but employment was lower.

Estimated employment for the 25 highest paid jobs in the state was about 40,000, over six percent of total statewide employment in 1999. General and operations managers, with an average wage of \$29.84, claimed nearly 40 percent of the total employment for these highest paying jobs. Most of the highest paid jobs require at least a Bachelor's degree. Additional training, certification, or professional licensing may also be required.

Legislators, mostly Town Selectmen, had the lowest mean hourly wage in 1999, \$5.75. They are the only occupation from the Management occupations major group to make this list. Seventeen of the 25 lowest paid jobs in the state can be found in *Personal care and services* occupations and *Food preparation and* serving related occupations groups.

Many of the lowest paying jobs are typically in the Services and Trade industries and usually include many parttime positions. In general, most of the

lowest paid jobs don't require formal post-secondary education, but some may require on-the-job training.

Estimated employment for the 25 lowest paid jobs in the state was roughly

60,000, about 10 percent of total statewide employment in 1999. Cashiers and Waiters and waitresses claimed over half of the total employment for these lowest paid jobs. Highest and Lowest Paid Jobs (continued)

Elisabeth Picard

\* The 1999 Employment and Wage data for New Hampshire was collected during the fourth quarter. Occupations were classified using the new Standard Occupational Classification (SOC) System. The SOC classifies workers at four levels of aggregation: 1) major group; 2) minor group; 3) broad occupation; and 4) detailed occupation. All occupations are clustered into one of 23 major groups. Within these major groups are 96 minor groups, 449 broad occupations, and 821 detailed occupations. Occupations with similar skills or work activities are grouped at each of the four levels of hierarchy to facilitate comparisons.

For example, Life, Physical and Social Science Occupations major group (19-0000) is divided into four minor groups, Life Scientists (19-1000), Physical Scientists (19-2000), Social Scientists and Related Workers (19-3000), and Life, Physical and Social Science Technicians (19-4000). Life Scientists contains broad occupations such as Agriculture and Food Scientists (19-1010), and Biological Scientists (19-1020). The broad occupation Biological Scientists includes detailed occupations such as Biochemists and Biophysicists (19-1021), and Microbiologists (19-1022).
