

Putting the Pieces Together

LMI 101.4

Using *Job Outlook & Locator* to Find Business Contacts

Economic and Labor Market Information Bureau
New Hampshire Employment Security, Concord NH

How to put all the pieces together

Knowing how to use the Job Outlook and Locator

We introduced all the aspects from the long-term occupational projections in the last training. The Job Outlook and Locator combines the projections information with other sources of labor market information to provide a more complete package of details for each occupation.

What's included

- ✓ SOC code and Occupational Title
- ✓ Generic Job Description
- ✓ Alternate Job Titles
- ✓ Training and Education
- ✓ Average Wage
- ✓ Estimated Employment
- ✓ Projected Growth Rate
- ✓ Annual Job Openings
- ✓ Type of Business Where Occupation is Typically Employed – NAICS Industry

How information is organized

- ✗ Introduction
- ✗ Education and Training Definitions and Descriptors
- ✗ Growth Rate Descriptors
- ✗ Description How to Use Information
- ✗ Occupations with all related data – SOC Code order
- ✗ Long-Term Industry Projections
- ✗ Index of Occupational Titles & SOC Code

Monday, February 29, 2016

Education and Training

Education and training for each occupation is classified by requirements in three categories: Education, Work Experience, and Job Training. The first two categories identify education and training before an individual is employed, while the last category refers to training received after employment.

Educational Requirements

Similar to the previous method of identifying education and training requirements, this category describes the typical level of education most workers need for an entry-level position in the occupation. The educational levels are:

- Doctorate (PhD) or professional degree (i.e., MD, DD, JD, DC)
- Master's degree (i.e., MA, MS, MEd)
- Bachelor's degree (i.e., BS, BA, BFA)
- Associate's degree (i.e., AS, AA)
- Postsecondary non-degree award (program completion, i.e., CNA, cosmetologist)
- Some college, no degree
- High school diploma or equivalent (GED)
- Less than high school

Work Experience

Some occupations require related work experience as an entry-level qualification. Frequently, these occupations are first-line supervisory positions, where the worker performs the same job tasks as the workers under their supervision, such as retail supervisors, marketing managers, or construction managers. Non-supervisory workers may also have an experience requirement, such as restaurant cooks and industrial truck and tractor operators. The work experience requirement levels are less than five years, five years or more, or none.

Job Training

This category identifies any additional training or preparation typically needed to gain competency in the occupation once the worker is employed. This type of training is occupation-specific, not job-specific, meaning skills can be transferred to another job in the same occupation. The job training categories are internships or residencies, apprenticeships, long-term on-the-job training, moderate-term on-the-job training, short-term on-the-job training, or none.

Occupational Descriptors

Job Outlook & Locator includes Occupational Descriptors, a concept that uses four categories (very favorable, favorable, less favorable, and not favorable) to summarize the expected prospects for an occupation. The descriptors are based on two factors: the projected growth rate and the projected number of openings.

Growth Rate

First, occupations are assigned one of five categories based on the projected growth rate (annualized percentage change over ten years) in employment between 2012 and 2022.

Very Low: Growth rate of 0.0 percent or less

Low: Growth rate of 0.2 percent to 6.7 percent

Average: Growth rate of 6.8 percent to 11.0 percent

High: Growth rate of 11.1 percent to 16.9 percent

Very High: Growth rate greater than 17.0

Openings

Occupations are assigned to one of five categories based on the number of projected average annual openings from both growth and replacement needs.

Very Low: Zero openings

Low: One to five openings

Average: Six to 10 openings

High: 11 to 49 openings

Very High: 50 or more openings

Descriptor Categories

Finally, the five growth rate categories are combined with the five categories representing the number of projected openings to produce 25 possible results. These results are assigned one of four descriptive labels:

- ↑ **Very Favorable:** Those occupations that combine high growth and a large number of openings are described as very favorable and are expected to provide the best opportunities through 2022
- ↗ **Favorable:** Favorable occupations may have a low growth rate, but only if the projected openings are high or very high. An occupation may be designated as favorable if the growth rate is better than average but the number of openings is below average. Occupations with an average growth rate and average or better openings are also considered to be favorable.
- ↘ **Less Favorable:** These occupations have better expected opportunities than the least favorable category, either because of a higher growth rate or more projected openings.
- ↓ **Not Favorable:** Occupations in this category have a negative growth rate and fewer than four annual openings per year. These occupations are not expected to be significant sources of jobs through 2022

How to Use the Job Outlook & Locator

Occupations are listed numerically by six-digit Standard Occupational Code (SOC) or refer to the alphabetical index in the back of the book to select an occupation. Use the example below as a guide.

1	29-2011 Medical and Clinical Laboratory Technologists	2																					
3	Perform complex medical laboratory tests for diagnosis, treatment, and prevention of disease. May train or supervise staff. <i>Examples: Blood Bank Technologist; Cytotechnologist; Immunohematologist</i>

7																							

- SOC code and Occupational Title:** For each occupation there is a six-digit numeric code designed to logically organize occupational data.
- Occupational Descriptor:** A designation that summarizes the projected growth prospects for this occupation. See page iv for a detailed explanation of descriptors.
- Occupational Description:** A brief description of the occupation and its duties, along with examples of possible job titles.
- Education, Experience and Training:** Three categories that identify the education, work experience, and job training required for a worker to gain competency in a specific occupation. See page iv for a complete description and examples of education categories.
- 2013 Mean (Average) Wage in New Hampshire:** Hourly wage based on the May 2013 Occupational Employment and Wages survey. For most occupations, this will be an hourly wage. For occupations with a non-standard workweek (teaching occupations, for example), an annual wage is given. An "n/a" indicates that wage is not available.

2012 Estimated Employment: Number of workers estimated to be employed in an occupation in 2012.

2022 Projected Employment: Number of workers projected to be employed in an occupation in 2022.

Growth Rate, 2012-2022: Percent change in employment from 2012 to 2022.

Annual Openings: Number of projected openings from growth and replacement needs, on an annual average basis, during the ten-year projections period.
- Industry and NAICS code:** A list of industries employing workers in this occupation, listed in decreasing order of 2010 share of employment. Up to six industries can be listed, identified by the corresponding North American Industrial Classification System (NAICS) code.

Job Outlook and Locator by Industry and Occupation, base year 2012 to projected year 2022

Based on a long-term look at New Hampshire's economy, more than 650 occupations are included, each with a corresponding Standard Occupational Classification (SOC) code and description, 2011 average hourly or annual wage, estimated 2012 employment, projected 2020 employment, projected growth rate for 2012-2022, estimated annual job openings, education and training requirements, and the employing industries.

333 Machinery Manufacturing	n	n

Then what?

Using the NAICS Industry information to find employers

In order to access the list of employers by business/industry type, you will need to reference by the first two digits of the NAICS code. Keep this page as a cheat-sheet.

North American Industry Classification System

NAICS		NAICS	
Code	Industry Title	Code	Industry Title
11	Agriculture, Forestry, Fishing and Hunting	53	Real Estate and Rental and Leasing
21	Mining	54	Professional and Technical Services
22	Utilities	55	Management of Companies and Enterprises
23	Construction	56	Administrative and Waste Services
31-33	Manufacturing	61	Educational Services
42	Wholesale Trade	62	Health Care and Social Services
44-45	Retail Trade	71	Arts, Entertainment, and Recreation
48-49	Transportation and Warehousing	72	Accommodation and Food Services
51	Information	81	Other Services
52	Finance and Insurance		

The industries which frequently employ welders:

- 332 Fabricated Metal Product Manufacturing 30.1%
- 811 Repair and Maintenance 9.3%
- 336 Transportation Equipment Manufacturing 6.3%
- 331 Primary Metal Manufacturing 6.0%
- 334 Computer and Electronic Product Manufacturing 5.9%

According to the list in the Job Outlook and Locator, Welders are most frequently employed in manufacturing businesses. – Remember these...
