

What is NHWorks?

New Hampshire Employment Security Video Script

Hi, I'm Cyndi from New Hampshire Employment Security.

There's lots of valuable employment related information available to job seekers and potential employers.

NHWorks is the name of our one-stop system located in the NHWorks offices throughout the state. It is a partnership of state and non-profit organizations working together to bring you information, resources and services about employment, the labor market, training, and other supportive services all in one place – and all the services are FREE.

The NHWorks offices have computers equipped with internet access, résumé writing software and letter templates. You can also find the job match system as well as copy and fax machines, and a library of employment videos, CDs and books.

At some of the offices, representatives from partner organizations, such as vocational rehabilitation and Community Action are available to assist you with educational assistance, job training, or referrals to community services.

For employers, we offer job fairs and assistance with job postings and recruiting, when you have a large number of openings to fill. We conduct employer seminars with relevant employment and unemployment related information. We can also share information on hiring incentives, the federal bonding program, as well as other programs that help people go back to work. Work Opportunity Tax Credit, On-the-job training, and the USDOL apprenticeship programs and veteran's programs are also available.

In the event a large layoff is necessary, we can provide specialized services for your employees that will assist with the entire job search process, the unemployment process, and minimizing paperwork for your office staff.

To learn more about what NHWorks can do for you, as a job-seeker or a potential employer, please visit our website: www.nhes.nh.gov.

Thank you.
