

EMPLOYERS: RESET YOUR OWN NHUIS PASSWORD

NH Employment Security is happy to announce that as of 7/11/19, you will be able to reset your NHUIS password. To reset your password you must complete one of the following 2 Options.

Option 1: Email address is on file; you can receive a temporary PIN Number via email.

Option 2: No email address is on file; follow the prompts to authenticate and reset your password.

The screenshot shows the NH Employment Security (NHES) website interface for the "Forgot Password" process. At the top left is the NHES logo with the tagline "We're working to keep New Hampshire working". The page title is "Forgot Password". Below the title, a message states: "The Administrator of your account has the ability to reset your password. Please see <Administrator Name> or choose one of the following options." There are two radio button options: "Send temporary PIN code to my registered email address." and "Authenticate using the Business Information below." The second option is selected. Below the options are two input fields: "UI Account# / TPA Account#:" with a "10-digit UI Account #" placeholder, and "Federal Tax ID (FEIN):" with a checkbox for "Our Company does not have an FEIN". At the bottom are "Cancel" and "Next" buttons.

*In the event that you cannot reset your password,
you may call the **Employer Dedicated Line** at
603-223-6100.*
