# Danbury, NH

#### Incorporated: 1795

**Origin:** This town was not an original colonial grant, but was formed from part of Alexandria to the north. In 1794, a group of Alexandria residents petitioned the state legislature to separate Alexandria into two towns due to the inconvenience of having a mountain divide the town, making it difficult for all residents to gather in a single place. The petition was granted in 1795, and the lower piece was incorporated as Danbury in that year. The name was suggested by a settler from Danbury, Connecticut. Land from Hill and Wilmot was added to Danbury later, and in July 1874, the town was transferred from Grafton County to Merrimack County.
