

Chiropractor

Examine patients to determine the nature and extent of disorders by using physical examinations, x-rays, and standard or special laboratory procedures or tests. Prescribe a treatment plan, which usually includes manipulations or adjustments of the spinal column. May also prescribe additional treatments such as heat, light, water or nutritional therapy. Chiropractors do not perform surgery or prescribe drugs.

Legislation

Statute: NH RSA 316-A
Administrative Rules: Chapter Ch 100 - 400

Licensure Requirements

- Graduated from a degree granting chiropractic college which is accredited by an established chiropractic accrediting body approved by the United States Department of Education; or
- Completed a chiropractic program at a chiropractic institution accredited by a regional accrediting agency approved by the United States Department of Education

Examination

Before submitting an application for licensure an applicant shall have taken and passed parts I, II, III and IV of the National Board of Chiropractic Examiners examinations and have the scores submitted directly to the state Board. An applicant shall take and pass with a score of at least 70 percent correct answers on a written jurisprudence examination testing knowledge of law and rules.
