Electrician, Master

Master Electricians perform work as their principal or auxiliary business or as businesses hire; they may employ others to do electrical work. Electricians install, repair, alter, and maintain electrical conductors, fittings, devices, and fixtures for heating, lighting, or power purposes. They must comply with the current edition of the National Electric Code. A master may directly supervise two apprentices; and up to a total of six masters or journeymen per job site may have a second apprentice to supervise.
