Determine how to combine raw materials to produce goods or build projects such as roads, dams, and bridges. Their duties vary with engineering fields, but may include planning and overseeing construction and research projects, designing equipment and machinery, and inspecting and testing materials and products. Examples of engineering fields include civil, industrial, nuclear, chemical, electrical, and mechanical.

**Legislation**
Statute: NH RSA 310-A:12
Administrative Rules: Chapter Eng 100 - 500

**Licensure Requirements**
- Must be of good professional character
- A minimum of a Bachelor of Science degree, or the equivalent, from an Accreditation Board for Engineering and Technology (ABET) accredited university in an engineering curriculum
- Certification as an “engineer-in-training” as a result of an NCEES fundamentals of engineering examination
- Four years of accumulated experience under the direction of a Licensed Professional Engineer

**Examination**
Written examination required, offered twice a year (April and October)

**Continuing Education**
Thirty professional development hours per biennium

**Reciprocity**
Permitted, provided that the other state’s licensure requirements are substantially equivalent to or higher than those of New Hampshire

**Active Licenses**
6,670

**Related Training**
Engineering, all engineering fields

**Regulatory Agency**
New Hampshire Board of Professional Engineers
Office of Professional Licensure and Certification
121 South Fruit Street
Concord, New Hampshire 03301
