Licensed, Certified, and Registered Occupations in New Hampshire 2021

Genetic Counselor

Genetic Counselors advise an individual client, a client’s family, or other licensed health care professional by obtaining and evaluating individual, family, and medical histories to determine genetic risk for genetic or medical conditions and diseases in a patient, his or her offspring, and other family members. Discuss means of diagnosis, genetic and environmental factors, and management of risk for genetic or medical conditions and diseases. Identify and coordinate genetic laboratory tests and other diagnostic studies as appropriate for the genetic assessment. Integrate and explain laboratory test results and other diagnostic studies with personal and family medical history to assess and communicate risk factors for genetic or medical conditions and diseases. Provide written documentation of medical, genetic, and counseling information for families and health care professionals.
