

Lead Abatement Contractor

A Lead Abatement Contractor is a person or an entity engaged in lead base substance abatement. Contractors are responsible for lead abatement site supervision when a certified lead abatement supervisor is not available, and must be available to the site during any lead abatement activities. They prepare written lead exposure hazard reduction plans for abatement projects, interim controls, and in-place management.

Legislation

Statute: NH RSA 130-A:12
 Administrative Rules: Chapter He-P 1600

Licensure Requirements

- File application
- Complete a certified training program specific to the discipline of lead abatement
- Pass examination with a score of 70 percent or higher
- Have at least two years experience in asbestos, lead, environmental remediation or in the building trades
- Owners of more than four dwelling units desiring or required to perform lead abatement must obtain a contractor’s license
- Owners of four or fewer rental units must pass a certified training program, but are exempt from licensure
- Owners with more than four but less than seven units may obtain their license at half the usual licensure fee; owners with seven or more units must pay the full licensure fee
