

Optometrist

Optometrists diagnose and treat optical defects, deficiencies, deformities, or diseases of the human eye, or any visual or muscular anomaly of the visual system. They adapt or prescribe spectacle lenses, contact lenses, prisms, or ocular exercises for correction, relief, or aid of visual functions. Some are certified to prescribe, administer, or dispense pharmaceutical agents and therapeutic contact lenses.

Legislation

Statute: NH RSA 327
 Administrative Rules: Chapter Opt 100 - 600
