Reflexologist, Structural Integrator, or Asian Bodywork Therapist

Reflexologists practice the use of alternating pressure applied to the reflexes within the reflex maps of the body located on the feet, hands, and outer ears. Structural integrators restore postural balance and functional ease by systematically aligning and integrating the human body in gravity. Asian bodywork therapists treat the human body, mind, emotions, spirit, and energy field using traditional Asian techniques and treatment strategies for the purpose of promoting, maintaining, and restoring health.
