

Commissioner's Introduction

New Hampshire Employment Security Video Script

Hello, I'm George Copadis, Commissioner of the New Hampshire Department of Employment Security, the "NHES". This Department was created to provide a free service to New Hampshire citizens — both employers and employees. NHES offers a broad range of employment and career-related services both online and at a statewide network of information centers.

We're also responsible for collecting the taxes that fund unemployment, and paying claims in a timely manner. So, essentially, we're the experts on unemployment compensation and benefits.

A job loss or hours reduction is stressful. Anyone faced with this situation has many questions. Naturally, you're worried about how to pay bills and make ends meet.

The New Hampshire Employment Security Department is a one-stop shop for the answers you need.

Together with Comcast, we've put together this series of short videos to answer the most frequently asked questions we hear from our clients. We hope you'll find these a helpful tool. Thank you for watching.
